

Testo 300 and 300LL flue gas analyser

Truly smart flue gas measurement.

Large scratch-resistant 5" HD display with smart-touch operation

Stored, intuitive menus for all relevant measurements

4 strong magnets with rubber coating for material friendly mounting

Ready to measure at the touch of a button in standby mode

Extremely durable $\rm O_2$ sensor and automatic dilution (with testo 300LL) up to 30,000 ppm CO

Measurement reports created and sent via bluetooth or email

Flue gas measurement truly smart: that is what the testo 300 stands for. The compact flue gas analyser is fully operated via the large touch display. You can see all the measurement values straight away on this without scrolling. The large 5" HD display brings simple smart touch operation and remains reliable in day-to-day working conditions. Menus for the most important measurements are already stored in the testo 300 and reliably guide you through the relevant application. The flue gas analyzer is not familiar with waiting times or start-up phases, it is immediately ready to go at the touch of a button in standby mode.

Documentation is dealt with just as quickly – with the testo 300, reports can be created and sent directly on site. The testo 300 and 300LL models can additionally be fitted with an optional NO sensor to allow calculated NOx measurement. testo 300LL models are also fitted with automatic dilution system to allow measurement up to a maximum of 30,000ppm CO whilst protecting the sensor from damage.

Truly smart: The testo 300 flue gas analyser.

Providing reliably accurate results is not enough. A contemporary flue gas analyzer also makes all work steps as easy as possible for you, both before and after the measurement, as well as in terms of the measurement itself. The user-friendly testo 300 was developed with precisely

this objective in mind. It is not just the fruit of decades of experience in measuring technology. With smart-touch operation, robust construction and e-mailing of reports, the testo 300 will quickly become your indispensable

Be sure. testo

companion for all measuring tasks involving heating.

Customers/measuring points

Integrated address book with details of the relevant heating system (e.g. manufacturer, system type, system name, serial no., fuel,

Professional documentation

Create measurement protocols with all the information about readings, customers and heating systems directly on site, add comments to them, have the protocols confirmed by the customer's signature and send the protocols. You can also store your company logo. All PDF reports with all the important information are also saved in the instrument, so that they are always to hand.

Operation via smart-touch

The smart-touch display responds immediately without any delay. That allows intuitive operation - just as easy as on your smartphone

Simple reporting

The testo 300 allows fast reporting via pdf protocol, which can then be sent using Bluetooth transfer to external device or direct to client via email.

Keep an eye on all the measuring values

You can see all the system's parameters straight away on the large 5" HD display.

Get the result faster

Clearly structured menus for all relevant measurements are already stored in the measuring instrument and guide you efficiently through the application.

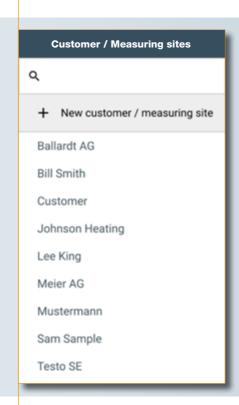

Ready to use straight away

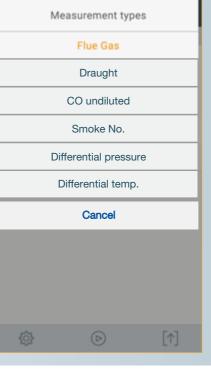

No more waiting time. In standby mode, the testo 300 is ready to measure at the touch of a button.

Completely worry-free

The testo 300 has quality sensor technology with up to 6 years' service life, measures high CO values up to 30,000 ppm and is future-proofed thanks to NO preparation. This model is also ready for 20% H2 blended gas

Intuitive measurement menus

Clearly structured and explicit menus for all applications involving heating systems are already stored in the testo 300. This allows you to do your jobs even more efficiently.

Technical data

Measurement parameter	Measuring range	Accuracy (±1 digit)	Resolution
O ₂ measurement	0 to 21 vol. %	±0.2 vol. %	0.1 vol. %
CO measurement (without H ₂ compensation)	0 to 4,000 ppm	±20 ppm (0 to 400 ppm) ±5 % of m.v. (401 to 2,000 ppm) ±10 % of m.v. (2,001 to 4,000 ppm)	1 ppm
CO measurement (with \mathbf{H}_2 compensation)	0 to 8,000 ppm	±10 ppm or ± 10 % of m.v. (0 to 200 ppm) ±20 ppm or ± 5 % of m.v. (201 to 2,000 ppm) ±10 % of m.v. (2,001 to 8,000 ppm)	1 ppm
CO measurement (with H_2 compensation and dilution)	0 to 30,000 ppm	±100 ppm or ± 10 % of m.v.	1 ppm
NO measurement	0 to 3,000 ppm	±5 ppm (0 to 100 ppm) ±5 % of m.v. (101 to 2,000 ppm) ±10 % of m.v. (2,001 to 3,000 ppm)	1 ppm
Efficiency testing (Eta)	0 to 120 %		0.1 %
Flue gas loss	0 to 99.9 %		0.1 %
CO ₂ determination (digital calculation from O ₂)	Display range 0 to CO ₂ max.	±0.2 vol. %	0.1 vol. %
Draught measurement	-9.99 to +40 hPa	±0.005 hPa (0 to 0.1 hPa) ±0.02 hPa (0.1 to +3.00 hPa) ±1.5 % of m.v. (+3.01 to +40 hPa)	0.001 hPa (0 to 0.1 hPa) 0.01 hPa (remaining meas. range)
Pressure measurement	-100 to +200 hPa	±0.5 hPa (0 to +50.0 hPa) ±1 % of m.v. (+50.1 to +100.0 hPa) ±1.5 % of m.v. (+100.1 to +200 hPa)	0.01 hPa
Temperature (instrument)	-40 to +1,200 °C	±0.5 °C (0.0 to +100.0 °C) ±0.5 % of m.v. (remaining meas. range)	0.1 °C (-40 to +999.9 °C) 1 °C (remaining meas. range)
Ambient CO measurement (internal/flue gas probe)	0 to 2,000 ppm	±10 ppm (0 to 100 ppm) ±10 % of m.v. (101 to 2,000 ppm)	1 ppm
Ambient CO measurement (external with CO probe)	0 to 500 ppm	±3 ppm (0 to 29 ppm) ±10 % of m.v. (30 to 500 ppm)	1 ppm

Certification	The testo 300 is TUV-tested according to 1st German Federal Immission Control Ordinance (BImSchV) EN 50379, Parts 1-3		
Storage temperature	-20 to +50 °C		
Operating temperature	-5 to +45 °C		
Charging temperature	0 to +45 °C		
Humidity application range	15 to 90 %RH, not condensing		
Power supply	Rechargeable battery, USB mains unit		
Rechargeable battery life	10 hrs		
Protection class	IP 40		
Memory	1 million measuring values		
Display	5.0" touch display, HD 1280*720 pixels, IPS (160 k)		
Weight	Approx. 800 g		
Dimensions	L: 244 mm (including probe connection) H: 59 mm W: 98 mm		
testo 300 warranty	Instrument/probe/gas sensors		
	O ₂ , CO sensor	36 months	
	Thermocouple and rechargeable battery	12 months	
testo 300 Longlife warranty	Instrument/probe/gas sensors		
	O ₂ , CO sensor	60 months	
	NO, NO _{low} , CO _{low} sensor	24 months	
	Thermocouple and rechargeable battery	12 months
