WCS CERTIFICATE OF REGISTRATION	

**I**taltruck has been a leading importer of commercial vehicle components and commercial body fittings since 2001. We are based centrally in the Heart of England, and from our large warehouse we distribute to the whole of the United Kingdom and all of Ireland.

Italtruck stocks the largest variety of steel, stainless steel and plastic toolboxes in the UK and Ireland. We also distribute a wide range of commercial vehicle accessories and truck body building components. Our product range is constantly being extended and reviewed.

We are the UK distributors for BAWER, DOMAR, TAKLER, DAKEN, BICMA, and ORAFOL REFLEXITE products. These manufacturers are known worldwide and are renowned for producing quality accessories and components at a competitive price. The brands are well known amongst trailer and tanker constructors and commercial vehicle bodybuilders.

All our products are manufactured in modern Western European factories that are all ISO certified. This guarantees the level of quality and traceability which customers demand. Our associated factories feature highly automated processes enabling the combination of consistent high quality and good price.

Italtruck are ISO9001 Certified and quality assurance procedures that are in place mean that all products are tested at various stages of the manufacturing process and are only distributed once they have undergone rigorous performance checks at every stage so that customers are assured of receiving a product of guaranteed quality.

Our West Midlands UK warehouse holds large stocks of the standard products shown in the catalogue.

We can also produce to customers' specific needs by manufacturing products to requested sizes and design.

Our customers are many and varied and range from the small body builder to the major trailer manufacturer, the supermarket to the military.

# BAWER MULTI BOX

The MULTIBOX is a useful “all in one” product that combines together a toolbox, a fire extinguisher box and a hand wash tank. The MULTIBOX allows an evident space saving and a considerable time and assembly cost saving. Different elements can be combined together, and several optional internal accessories can be added, such as fixed or pull-out shelves, draw units, LED courtesy lights and any personalisation. All equipment requirements can be satisfied.

The MULTIBOX is available in all BAWER standard materials and finishing.

The lock can be Euroinox in polished stainless steel or Europlex in plastic.

These multibox are produced to order.

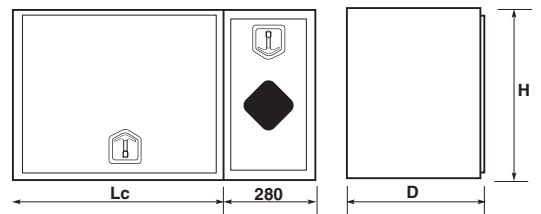

\* Shown with optional drawer

## Black MULTIBOX

Code	Dimensions mm			Weight kg
	L	H	D	
V4815	1000*	530	500	47.0

\* Overall length can be changed from 1100 to 1600 mm in base of toolbox.  
Dimensions (Lc) from 500 to 1000 mm.

## TOOLBOX OPTIONS

BAWER toolboxes can be fitted with any of the numerous optional accessories available. Increases in internal space are possible by inserting removable drawers, dividing walls and shelves. From our range of accessories you can make toolbox opening and closing much easier, with additional gas springs and and an aerator which will allow controlled air circulation inside the toolbox, in order to avoid condensation damage.
