Collection Characteristics & Specifications	2
Womens	4
Mens	16
Insoles Characteristics & Specifications	32
General Terms & Conditions	33
Measurement Charts	34

Characteristics of this new collection:

- A wide and diverse range of models - all models are stock items.
- All models are produced using our approved ladies last K/M and men's last K/M: nature shaped front part providing sufficient space for toes – narrow heel part providing a perfect fitting which avoids heel slippage.
- Models are produced with "Xsensible Inside Stretch Leather" – this provides greater flexibility to accommodate for changes in foot volume, eg oedema or prominent bunions.
- Special diabetic lining material designed for diabetic patients - soft, comfortable and durable which is also breathable, washable and skin friendly
- Shoes include 2 inlays: a 5mm cork insole and a 5mm cork-leather insole - both are removable and the maximum depth for individual insoles is 10mm.
- Additional reinforced insoles are available upon request, not permanently integrated in the shoe.
- All shoes are available in UK ladies sizes 3-9 and men sizes 6-12. (including ½ sizes)
- Outsoles: PU outsoles, light weight EVA and abrasion resistant TR sole. All 3 are easy to adapt.
- Width M+ extra depth option available in Sailor Velcro, Ilke Velcro and Luca Vecro, offering an additional 7mm depth on top of the standard 10mm

Xsensible Stretch Leather

The advantages and characteristics:

- This feature ensures that the leather stretches 70% in width and also 30% in length.
- The top layer is made of genuine leather and the bottom layers are made of Lycra constructed with a natural foam material in between.
- Footwear in this collection is made with Xsensible Stretch Leather technology which is extremely stretchable and adapts individually to your foot.
- Xsensible Stretch leather has a unique property of being breathable and providing an optimal foot temperature

Indications

Diabetic polyneuropathy with pronounced Neuropathy (loss of sensitivity) and more pronounced Angiopathy (circulatory disorders), associated with already existing or healed ulcers and/or other mechanical irritations that lead to regional pressure peaks.

For everyone who doesn't want to compromise on comfort and appearance within their own four walls, Nimco presents two styles, specifically developed for people who need special care for their feet, yet still want to enjoy the feeling of home in a stylish and responsible way.

With the styles Luca Velcro and Inspiration Velcro we combine the best of both worlds: the soft comfort you expect from a slipper, with the elegant look and support of a real shoe. This way, you enjoy protection, convenience, and a stylish appearance all day long – from the living room to the kitchen.

Choose safety, comfort, and design – even in your own home.

Insoles Characteristics & Specifications

All of our diabetic stock footwear include two removable separate insoles:

By removing both insoles, you gain an extra 10mm depth and 20mm in circumference.

Having removable insoles also makes it possible for a bespoke orthosis to be worn with these shoes comfortably.

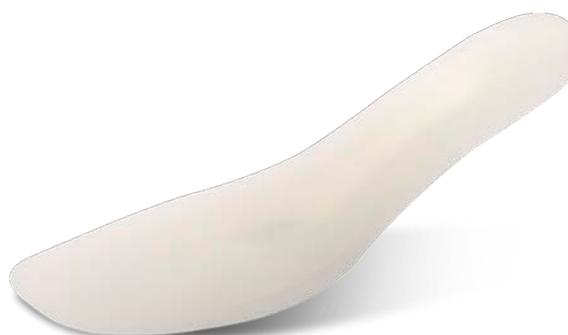

Sole reinforcements **VIPREX**[®]

As an addition it is also possible to order a perfectly fitting sole stiffener made of innovative glass fibre polypropylene. This latest development is extremely thin but has the highest rigidity within the shoe. It is a simple and health-friendly component. Thickness: 1mm

Available sizes:

- Ladies I for shoe size 3 - 4.5 (code 9114/1)
- Ladies II for shoe size 5 - 7.5 (code 9114/2)
- Ladies III for shoe size 8 - 9.5 (code 9114/3)
- Men's I for shoe size 6 - 7.5 (code 9115/1)
- Men's II for shoe size 8 - 10.5 (code 9115/2)
- Men III for shoe size 11 - 12.5 (code 9115/3)

Tip: To achieve an even firmer sole stiffness on the ladies shoes use a mens stiffener as it has a higher rigidity.

General Terms

Ordering

To place an order, please post, email or fax us with your requirements. If you prefer to use product codes to describe your footwear, please contact us and we will be happy to send you our latest order code list.

Delivery

Our Diabetic Stock Footwear is part of a stock system. Once we have received your order it will be processed and dispatched within 5 to 7 working days (subject to stock). If a delay does occur with your order, we will always contact you, explain the delay and provide a new delivery date.

Missing items or deliveries must be reported within 4 weeks to be eligible to be replaced

Returns

When you receive your order we want you to be happy with every aspect of your footwear. However if you need to return the footwear for any reason. We will be happy to receive them under the following conditions:

- Your footwear must be unworn and be less than 30 days from date of delivery.
- Finally, any order which has been adapted in any way cannot be returned unless faulty.

Your statutory rights are not affected.

Payment And Delivery

Payment terms and delivery tariff information are available on request as this is dependent on your geographical location and pre agreed credit terms. If you have any other queries. please don't hesitate to contact us and we will be more than happy to assist you.

Missing items or deliveries must be reported within 4 weeks to be eligible to be replaced.

VAT

VAT will be applied at the ruling rate. Where VAT exemption is applicable, an Exemption Certificate or accepted documentation must be supplied at the point of ordering.

PAYMENT TERMS

Payment terms are strictly 30 days from date of invoice for account holders. BACS, Cheque, MasterCard or Visa may also be used to make payment. Please allow 7 working days for cheque clearance before goods are dispatched. Please make all cheques payable to DeNovo Healthcare Ltd. We reserve the right to charge interest on overdue credit accounts and severely overdue accounts may be placed on stop. We will always make every attempt to contact you to discuss your account before this action occurs.

Please refer to our Pricelist for full Terms & Conditions, these can be requested via phone, email or letter.
