

We do COLOUR!

DATA SHEET

Product Code: FI**

Please read these instructions carefully before beginning any electrical work and retain them for future reference.

The product should be installed in accordance with local building regulations. If in doubt or where required by law consult a qualified electrician.

1. Always switch OFF the mains either by the consumer unit, remove the appropriate fuse or switch off the appropriate MCB before beginning electrical work. Wiring should be done to the latest IET regulation (BS7671)
2. Always use cable of the correct rating and type.
3. The layout of the terminals may differ between fittings so check the location of terminal connections carefully before wiring.
4. Make electrical connections according to the relevant diagram ensuring no bare wires protrude from the terminals. Please ensure all terminals on each product are securely tightened, including factory tightened terminals.
5. Screw plate to wall using fixing screws supplied and clip the faceplate on.

Warranty: If this item becomes defective within 5 years of purchase date, Trendi Switch Ltd will replace the item, at its discretion, and only as a result of faulty products materials. If due to workmanship, provided that the unit has been correctly fitted according to the instructions, has not been used overloaded beyond its rating, tampered with or taken apart. If requested, pack the unit securely and return it to: PO Box 890, Forest Row, East Sussex, RH18 9LX (Tel. +44(0)203) 5899520), together with a letter stating the warranty registration number below, the date and place of purchase, the type and wattage of the lighting or other load being controlled and the details of the fault.
Reg no.: 01052201

This warranty states Trendi Switch entire liability, which does not extend to cover consequential loss or damage or installation costs arising from a defective product. This warranty does not in any way affect the statutory rights of the purchaser and is offered so that you may have the benefit of our technical facilities.

Recycling services for end-of-life electrical products should be offered by your local authority. Recycling services for plastic faceplates may also be available in your locality.
