# OUR VALUES

---

## **Quality**

We have a commitment to the quality of all our products. There is 'one standard' in our work. Each piece of equipment we engineer is assembled, rigorously quality-checked, and tested prior to leaving our Manchester factory. This is not sample profiling or batch testing. We test 100%.

## **Service Delivery**

Being responsive to customer demand is important to us. Whilst we work with our customers to plan forward and support forecasts wherever possible, also securing the best commercials – we know this is sometimes not possible and our stock has resulted in TecFlo being a 'supplier of choice' meeting the ever-changing demands of our customers.

## **Price**

With supplier agreements and relationships spanning decades, we leverage a powerful history and reputation. All tooling is owned by TecFlo and we have committed two tools across almost all our major products. With TecFlo tools and commitment to 'dual sourcing' we safeguard business continuity and secure some of the best commercials in the market.

# ABOUT US

---

TecFlo was founded by my father, Geoff Wood, back in 1986.

With a great product, a career's worth of industry knowledge and a business idea driven by values of quality, family and innovation, he set about building one of the most trusted and respected brands in the beer dispense market.

Fast forward almost 40 years, and although we might be a little bigger than we were in the 80s, we still have the same set of values at the heart of our business.

To date, we've sold products in 43 countries worldwide, covering Europe, the Middle East and America. At the last count, 4.5 million EcoFlo fob detectors can be found in the cellars of our customers and 2.5 million taps have been manufactured, tested and distributed from our Manchester-based warehouse.

It's fair to say we've come a long way.

To find out how TecFlo can support you, or if you would like more information on our products and services, please don't hesitate to get in touch - we'd love to hear from you.

Emma Stewart  
Managing Director

# KEG COUPLERS

**Complete stainless steel construction and pressure tested to ensure performance, our couplers are built to last.**

**All of our Keg Couplers come with our 1-year warranty.**

- High-quality, stainless steel construction
- Patented design eliminates CO2 pipe kinks
- Hand-assembled
- 316 stainless steel beer probe
- Pressure tested for assured performance
- Available with or without TecFit fittings
- Available with a 5/8 thread, complete with blow-off valve

## SANKEY MK1

Designed to work on kegs with S Type fittings, such as Amstel, Carlsberg, Foster's, Heineken, John Smith's, Kronenbourg, Moretti, Peroni, San Miguel, Strongbow and Tetley's.

## SANKEY MK2

With the same fittings as our Sankey Mk1 coupler, but featuring our unique, patented, double-vertical gas and product lines, eliminating kinking on the gas inlet and putting an end to CO2 pipe kinks.

## GRUNDY MK1

Designed to be used on a variety of popular UK beer brands, including Carling, Corona, Worthington, Bass, Caffreys, Grolsch and Coors.

## GRUNDY MK2

With the same fittings as our Grundy Mk1 coupler, but featuring our unique, patented, double-vertical gas and product lines, eliminating kinking on the gas inlet and putting an end to CO2 pipe kinks.

PRODUCT CODE: #876545

## **GRUNDY**

Designed for use with Grundy-style keg couplers

PRODUCT CODE: #876545

## **A TYPE**

Designed for use with A Type-style keg couplers

PRODUCT CODE: #876545

## **D TYPE**

Designed for use with D Type-style keg couplers

# GAS REGULATORS

**Our range of gas regulators are manufactured and rigorously tested in line with necessary regulations.**

**Easy to fit and maintain, our Regulators all come with a 3 year warranty.**

- Metal construction
- Accurate, clear pressure control
- Available with or without TecFit fittings
- Individually pressure tested in-house
- 3 year warranty

## PRIMARY REGULATOR (WALL MOUNT)

Our wall mounted primary regulator provides clear pressure control and includes an integrated release valve. Available for CO2 and mixed gas.

## PRIMARY REGULATOR (BOTTLE MOUNT)

The bottle mounted version of our primary regulator easily fits to the top of any standard gas bottle. Available for CO2 and mixed gas.

## SECONDARY REGULATOR (WITH GAUGE)

Enabling accurate pressure control, our secondary reducing valve comes complete with steel gauge, shut off valve, and wall mounting bracket

## SECONDARY REGULATOR (NO GAUGE)

This secondary regulator comes without a gauge, but includes all the features you'd expect - steel shut-off and a heavy duty wall mounting for simple, secure installation. This is the only regulator on the market with an integrated NRV.

# FOB DETECTORS

**TecFlo is the home of the original EcoFlo fob detector.**

**With over 4 million units sold worldwide, EcoFlo is the most widely used fob detector of its type, helping pubs and restaurants of all sizes reduce waste and improve quality.**

- Easy fitting, cleaning and maintenance
- Manufactured and individually pressure tested in-house
- 3 year warranty

## ECOFLO MK1

When a keg is empty, EcoFlo automatically detects it, stopping the flow of beer, keeping your lines full and preventing the usual foaming. Easy to install, use and maintain, the EcoFlo fob detector is compatible with the vast majority of dispense setups.

## ECOFLO MK2

Containing all the features and benefits of the original EcoFlo Fob Detector, our Mk2 version is designed to support high-pressure dispense systems, guaranteeing 100% immediate shut-off using a higher product inlet.

## SMARTFOB

Stablemate to our no.1 fob detector the EcoFlo, the SmartFob has its own distinct features including a 2.5OZ tube, Bottom fill and Outlet, and multi-tap application. Available in both stainless steel and acrylic.

## MINIFOB

Containing all the features of the EcoFlo, the MiniFob comes with a 2oz tube. Available in both stainless steel and acrylic.

## BEER MONITOR CONTROL BOX

To ensure a continual flow the beer monitor control box stops your meter from cutting out when cleaning your system.

# TAPS

---

**Individually pressure tested by our in-house team, our taps come with a 3 year guarantee.**

- Choice of finishes and handle sizes
- Removable handles
- Choice of inlet sizes
- Creamer plate size options
- Available with or without TecFit fittings
- Individually pressure tested in-house
- A range of flow control taps available

## REMANUFACTURED BEER METER

Our remanufactured beer meters come with a 12 month warranty and are tested to ensure they meet Trading Standards requirements for accurate measurement.

# TECFIT

**TecFit fittings can be installed without the need for tools, sealants, tape or other materials and work with all standard dispensing setups. Our push-fit design ensures pipes are securely held in place, without damaging the pipe or interfering with flow.**

- Easy to fit and maintain
- Push-fit fittings require no tools or sealants
- Corrosion resistant
- No minimum orders
- 10 Year Warranty

## ANGLED SHUT OFF VALVE

Our Angled Shut Off Valve is designed to stop flow with a simple turn of a handle.

Tube OD - 3/8"

## GAS NON-RETURN VALVE

Our Gas Non-Return Valve has been designed to allow gas flow into your keg, while preventing beer flow into your gas line, maintaining pressure and avoiding contamination.

## TUBE TO HOSE ADAPTOR

Our Tube to Hose Adaptor converts standard TecFit connectors into a standard male hose-type fitting.

3/8"-3/8", 3/8"-1/4" and 3/8"-5/16" fittings available.

## EQUAL DIVIDER

Our Equal Divider splits supply into two equally sized flows.

Tube OD - 3/8"

## EQUAL ELBOW

Our Equal Elbow securely connects equally sized tubing or pipes in a 90° bend

Available as 3/8", 1/2" and 15mm

## EQUAL STRAIGHT

Connects two equally sized flow pipes together.

Available as 3/8", 5/16" or 3/16".

## FEMALE ADAPTOR

Our female adaptor allows quick disconnection without the need for tools

Connects OD 1/2" to 3/8"

## PLASTIC PLUG

Our Plastic Plugs securely close off an unused TecFit outlet fitting.

## REDUCER

Our Reducers instantly reduce the size of a standard TecFit fitting.

Available in 5/16"-3/16", 3/8"-3/16", 3/8"-5/16" and 1/2"-3/8".

## SERVICE VALVE

Our Service Valve allows quick, simple isolation of a fitting without interfering with supply.

Tube OD - 15mm

## SHUT OFF VALVE

Our Shut Off Valve is designed to stop flow with a simple turn of a handle.

Tube OD - 3/8"

## STEM ELBOW

Our Stem Elbows create a flexible, pivoting joint between two TecFit fittings..

Available in 3/8"-3/8", 15mm-15mm, 3/8"-3/16" and 3/16"-3/16"

## STRAIGHT CONNECTOR

Our Straight Connector securely connects two tubes or pipes.

Available in 3/8"-3/16", 3/8"-5/16", 5/16"-3/15", 1/2"-3/8", 3/16"-3/16" and 13mm.

## STRAIN RELIEF BOOT

Our Strain Relief Boot is inserted into tubing to reduce the amount it is able to bend, minimising wear and tear.

Tube OD - 3/8"

## COOLING MANIFOLD

Our Cooling Manifold operates with a standard 15mm water recirculation system.

15mm fittings, to 3/8" tube OD

PRODUCT CODE: #876545

## EQUAL TEE

Our Equal Straight securely connects three equally sized tubes or pipes.

Tube OD - 3/8"

PRODUCT CODE: #876545

## U BEND

Our U Bend links two pipes of equal size to create a U-shaped connection.

Tube OD - 15mm
