

Solid Wood Kitchen Islands

We can supply Kitchen Islands in the 2 designs below which can be made to any configuration of cabinets you choose.

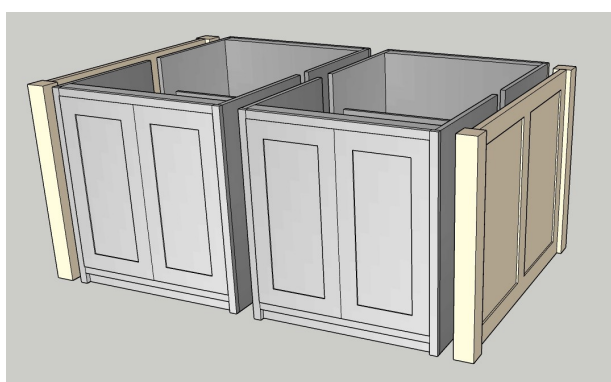

Example 1: Any amount of cabinets back to back and 2 x end panels with fitted posts

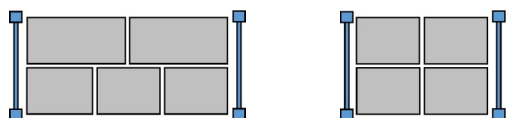

Example 2: Any amount of cabinets on one side plus 2 x end panels with fitted posts and 1 x full back panel (*creates a breakfast bar*)

How to choose your preferred kitchen island layout.....

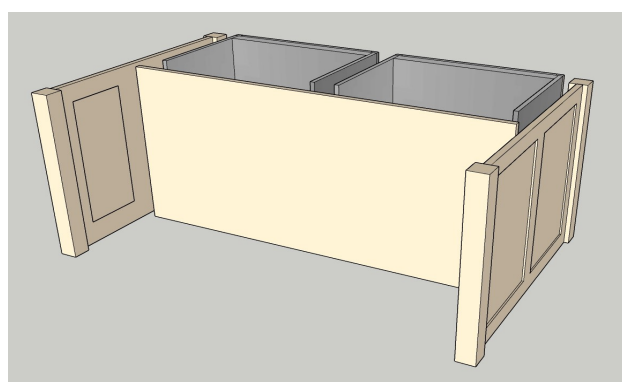

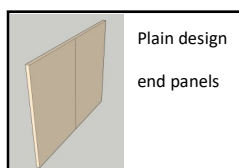

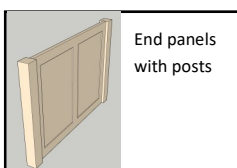

Option 1:

Step 1: Choose any standard cabinets from our ranges to sit back to back (*this can be achieved either by equal sizes or made up of staggered sizes, example below*)

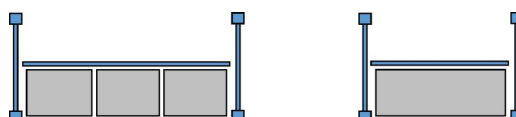

Step 2: Pick your choice of end panels, these can be with or without posts:

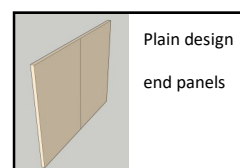

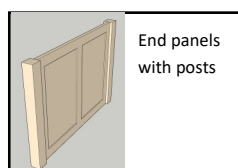

Option 1:

Step 1: Choose any standard cabinets from our ranges to sit side by side (*this can be achieved either by equal sizes or made up of staggered sizes, example below*)

Step 2: Pick your choice of end panels, these can be with or without posts:

Using the prices from our cabinet ranges along with the end panel choices, a rough price can be seen but if you would like to email us with your preferred layout we can confirm the costings for you.

A few examples of Kitchen Islands we have produced

SOLID WOOD KITCHENS

Estd. 1998

furniturenation.co.uk

We can also supply a solid oak worktop (if required) for your island top.

This usually needs to be quoted later though when the overall size is decided.

We can make any of the cabinets and end panels to any size so any overall size can be accommodated.
