# Finding What You Want

Our range of Trims, Seals and Rubber Extrusions is very extensive and for the uninitiated the different profiles can be very confusing. We have tried to divide the different sections into shapes as well as descriptions.

Although we cater mostly for Vehicles, we do have a small selection of profiles for Caravans/Motorhomes and Marine. Our profiles cross over for many other applications and we have supplied them for manhole covers, surf boards, showers, fridges, pianos etc. The list is endless. If you do not find what you require, please email us and we will help.

## Glossary

In most cases our Part no's/Codes explain the type of section in our product range.
