

# ALLPIPE STOPPERS & GROUND EQUIPMENT

A TRADING NAME OF HEALEY & LORD LTD

## 135mm Polypropylene Duct Mandrel – data sheet:

Product code: AP27-135

The Allpipe range of UK made polypropylene mandrels are ideal for the maintenance, commissioning and checking of all types of pipework and services ducting

To calculate the diameter of mandrel required please deduct 10% from the internal diameter of your pipe to give the size of mandrel you need - for example: If you have a pipe with a 150mm internal diameter you would need a 135mm mandrel to suit this pipe (150mm less 10% is 135mm)

The Allpipe 135mm diameter mandrel is supplied with 2 robust galvanised eyelets and through bolt to provide excellent durability for pipework and duct maintenance and testing activities All polypropylene mandrels are available from stock on a free of charge next working day delivery for orders placed by midday

Bespoke sized polypropylene and timber mandrels are available to order - please contact us on **01603 489260** or Email: [salesandhire@allpipe.co.uk](mailto:salesandhire@allpipe.co.uk) and we will be very pleased to help you
