

## Tips for Sending Tap Valve Photos

### Step 1 – Photograph your Tap

A few photographs of your tap will help us identify the make and model.

**TIP: Take your photographs from 3 angles Top, Front and Side**

### Step 2: Any photographs of the logo on the Tap

(this could be at the base of the tap or on the handle)

### Step 3: Photograph of the part you need

Photographs and Measurements of the valve or parts your looking for will help us identify a match quicker

### Where to Send Your Photos

Email: [sales@bathroomspareparts.co.uk](mailto:sales@bathroomspareparts.co.uk)

Include any product codes / rough installation date with your images.
