

## Tips for Sending Shower Door Photos

Follow these steps so our technical team can identify your shower enclosure quickly.

Clear, well-lit photos speed up matching and reduce back-and-forth.

### Step 1 — Photo of the Whole Enclosure

Stand back and capture the entire shower so we can see the overall shape, layout and door type. This helps our team identify the make and style of your enclosure.

### Step 2 — Photo of Brand logo

Close up image of brand logo. These details are often found on the enclosure door and are the key to identifying the manufacturer.

**Pro Tip: Avoid heavy reflections or photos taken too close. Take a couple of angles if unsure.**

### Step 3 — Photo of the Specific Part You Need

Photograph the part itself (e.g., handle, roller, or seal profile) on a plain background. Keep the camera steady and ensure good lighting.

### Where to Send Your Photos

Email: [sales@bathroomspareparts.co.uk](mailto:sales@bathroomspareparts.co.uk)

Include any labels, markings, or rough installation date with your images.
