

## Epix9+ Strobe Wide Driving Beam auxiliary light 9" (Ivory white, Powerboost)

- ✓ Epix9+ Wide Driving Beam with a wider light pattern!
- ✓ Strobe light with five different patterns (one R65-approved)
- ✓ Ledson developed Swedish design in ivory white

Epix9+ Strobe Wide driving beam in white design with extra wide beam pattern. Epix9+ Strobe in ivory white design is an LED auxiliary light with Wide driving beam and integrated strobe light, developed to provide very wide beam pattern and high safety in demanding environments. The 40° wide beam pattern covers a significantly larger area than a traditional 20° driving beam, providing optimal visibility and facilitating early detection of animals and other unexpected obstacles. Despite the wide spread, a range of 677 metres is maintained in power boost mode and 359 metres in E-approved mode, providing a well-balanced combination of width and length in the beam pattern.
