

Lumina RD4 Work / Reverse light

- **90° wide beam with high intensity**
- **Approved as reverse light**
- **Compact, only 3,4 cm deep**

Lumina RD4 work light is designed for use as high-performance work lighting or approved reversing light in a smaller format. It delivers 1789 actual lumens with a neutral white colour temperature of 5000K, providing a clear and powerful light. With a brightness of 1 lux at 47 metres and a compact depth of 37 mm, Lumina RD4 provides good light coverage in relation to its size and is well suited for confined spaces and everyday work tasks. The design offers a balanced combination of compact design and high efficiency.

SKU	33301122
