

Scene Light LED 24W (E marked ECE R23, flood)

- ✓ A small work light / reverse light that attaches to a vertical surface
- ✓ Placed e.g. inside the trailer, outside the caravan / camper, etc.
- ✓ 70 degree spread, 2200 actual lumens!

Scene Light is designed for mounting on a vertical surface at a height to effectively illuminate a selected area. Typical areas of use are inside trailers or on the outside of caravans and motorhomes, as well as on the side of ambulances, fire engines and similar vehicles. The design provides a light spread of 70° with a brightness of 2200 actual lumens.
