

Optoline NGR+ position light

- ✓ For recessed mounting with click fasteners
- ✓ With 2 metre long cable or Scania NG connectors
- ✓ Choose white or yellow-orange light

OptoLine NGR+ is a position light developed for recessed mounting with flexible installation. Thanks to smart click fasteners and a 2-metre cable (item no. 54007231), the lamp can be placed in several different locations. The IP67 rating makes it possible to mount it low down on the vehicle without risk of water damage. A pre-mounted foam gasket protects the paintwork during installation. The product works with both 12 V and 24 V (10–48 V).

SKU	54007131	54007231
IMPLEMENTATION	Scania NG	2 m cable
DEPTH (MM)	34	
E-MARKED	ECE R148	
HEIGHT (MM)	37
