

Epix30+ Prime LED bar 30" 270W Powerboost

- ✓ Exclusive design will make you visible with style
- ✓ Epix30+ Prime reaches 672 m at 1 lux with Powerboost
- ✓ Position light with unique dynamic ignition

The Epix30+ Prime stands out from the crowd with its own sporty design, developed with today's modern cars in mind. A unique feature is its Position light, fully integrated into the reflector. The Epix30+ Prime is also available with a strobe light.

The dynamic ignition of the position light also gives the ramp an impressive start-up. Everything you need and want in a LED bar is included in the Epix30+. Performance is maximised in E-approved mode, with the option of powerboost when off-road mode is required. Specially developed smart mounts provide great freedom during installation, both in terms of placement and type of vehicle.
