

## Epix14+ Prime Strobe LED bar 14" 120W Powerboost

- ✓ Exclusive design will make you visible with style
- ✓ Integrated position light, R65 approved strobe light
- ✓ Epix14+ Prime Strobe reaches 459 m at 1 lux with Powerboost

Epix+ Prime stands out with its own sporty design, developed with today's modern cars in mind. The approved R65 strobe light ensures high visibility and the world-unique Position light is fully integrated into the reflector. Epix14+ is also available in a version without strobe light.

The dynamic ignition of the position light gives the LED bar an impressive start-up. Everything you could want in a LED bar can be found in Epix+ Prime. Performance is maximised in E-approved mode, with the option of powerboost when driving in off-road mode. The R65-approved strobe light provides clear warning lighting when working on the road and contributes to safety in all weather conditions and at all hours of the day. Proprietary, smart mountings allow installation virtually anywhere on the vehicle.
