BEFORE USE

Ensure the paintwork and cab windows are clean and free of debris before fitting the cover.

QUICK SET UP

- Open your Eclipse Windscreen Cover and separate the three panels.
- Pull the windscreen wipers up and loosely place the middle windscreen panel onto the front windscreen. Ensure the TOP label is facing the glass of the windscreen.
- Open the cab doors of your vehicle and hook the elastic straps of the side window panels over the top inside corners of each door as shown below:

- Pull the side window panels tight and velcro the tabs securely around the wing mirror as shown below:

- Ensure that the door handle cut out is in the correct location before closing both cab doors.
- Attach the velcro of the middle windscreen panel to each of the side window panels ensuring a secure & tight fit as shown below:

- For a more windproof fit ensure that the magnets are used on the top of the middle windscreen panel and around each side window panels.
