

Mount on Metal Series

Model: Maxi

1. Introduction

Maxi is an optimised alternative of Mini tag with improved transmission distance. It is capable of delivering read range up to 5M (fixed reader). High performance for metal asset tagging in a wide range of industries.

2. Available IC

Alien Higgs-4, others upon request

3. Data Sheet

Item	Specification
Radio Protocol	EPC Class 1 Gen2
Operating Frequency	860-868MHz(EUR)
Read Range-Handheld Reader	Up to 3.3M
Read Range-Fixed Reader	Up to 5M
Material	Epoxy, Glass Fibre Board
Available IC	Alien Higgs-4, others upon request
Operating Temperature	-25°C - +85°C
Operating Distance	-40°C - +125°C
Dimension	36.3(L)x 13.2(W) x 3.4(D)
Polarization	Linear

4. Dimension
