

DATASHEET

PRODUCT: Tamper-Proof Label (Mifare Ultralight EV1)

Product Code: SEC018

Overview

This Tamper Proof RFID Label Tag is specially designed for tagging directly to a substrate, such as glass. Any attempt to remove or tamper with the label will destroy the antenna and break the chip-antenna connection. The tag carries a Mifare compatible transponder for Mifare1K (S50) or Mifare Ultralight EV1 standards.

These tags are fully customisable for bulk orders with customer logo and details overprinted. Please contact us for details.

Specifications

Dimensions (mm)	52mmx52mm
Operating Temperature Range (°C)	-10°C to +50°C
Material	PETG
Attachment Method	Adhesive
Applicable Surface Materials	Non-Metal
Weight (g)	0.3g
Read Range	Up to 3cm, Depends on Reader
Chip Type	Mifare Ultralight EV1
Frequency	13.56MHz
Protocol	ISO 14443A
