NEW PRODUCTS

Samsung Mono R290 Gen 7

NEW

Samsung's newest addition to its EHS heat pump line-up, the EHS Mono R290, offers a new home solution for residential homes. The EHS Mono R290 uses R290 as its refrigerant which has a much lower Global Warming Potential (GWP), whilst offering higher flow temperatures.

- Quiet operation

- Aesthetic design

- SmartThings energy integration

- Higher operational temperatures if required

Ideal Heat Pump

NEW

On the back of their strong position in the residential boiler market, Ideal heating launch the Logic Air Heat Pump Range.

- 4kW, 5kW, 8kW and 10kW Outputs

- Halo Air Controls, wired or WiFi

- Range of pre-plumbed cylinders

- Renowned service and support

Tecnosystemi Heat Pump Booster Feet

NEW

- Adds 100mm to mounting height

- Compatible with our standard and low extreme feet only

- Standard, height becomes 195mm

- Low, height becomes 165mm

- Compatible with Daikin and Samsung heat pumps that require minimum 150mm clearance.

Fernox Anti-freeze Valves

NEW

- Range of sizes; 28mm compression, 1", 1 ¼" and 1 ½" M BSP

- An alternative to using glycol in heat pump systems.

secon

NEW PRODUCTS

Duca Pumps

NEW

- 25-12-180
- 12 metre head pump
- Proportional pressure mode
- Constant pressure mode
- Constant speed mode
- 180mm body length
- No PWM control

ESBE Valves

NEW

- ESBE valves for heating and cooling applications
- High quality engineered products
- ESBE supply a full range of 2-port, and 3-port valves with matched actuator heads for different control strategies.

secon

SAMSUNG

FREE DELIVERY!

NEW

Future-focused technology meets sophisticated design in Samsung's new EHS Mono R290 heat pump series.

Samsung air source heat pumps can be installed with third party domestic hot water tanks or combined with a Samsung pre-plumbed ClimateHub tank solution to ensure home comfort all year round, regardless of the outdoor temperature.

IMPORTANT NOTICE - Samsung MIM Controller required with heat pump

Airwell

FREE DELIVERY!

An array of different sizes of R32 heat pumps are available in single phase; 4kW, 6kW, 8kW, 10kW, 12kW and 16kW. These heat pumps are well built with high quality components and a robust chassis. The design is fully integrated with an internal circulating pump and expansion vessel. Every unit comes complete with a controller and also DHW sensor and a Y strainer.

One of the USPs is that all single fan units are very compact so that even the 16kW is less than 1 Metre tall. All Airwell controllers include a true cascade function so that one controller can manage up to 6 heat pumps.

Airwell Single Fan Single Phase Heat Pump

Panasonic

heating & cooling solutions

FREE DELIVERY!

Aquarea is an innovative low-energy system, designed to provide ideal temperatures and hot water in the home, even with extreme outdoor temperatures.

It is highly reliable thanks to the quality of all components, including the compressor, developed and manufactured by Panasonic.

Don't forget to add flexi feet and hoses. A buffer tank is also required to comply with the Panasonic warranty.

STIEBEL ELTRON

Stiebel Eltron offer a wide range of air and ground source heat pumps in single and three phase options.

The units have inbuilt inverter technology matching the heat pump output to the required load. With flow temperatures of up to 65°C, high seasonal performance factors and market leading noise levels the Stiebel Eltron range sets the standards in the heat pump market.

With innovative combined DHW cylinder and buffer tower units, Stiebel can offer compact and time saving solutions.

Stiebel Eltron offer complete package solutions that incorporate full system kits that include necessary cylinders and buffers required.

Premium packs are available for:

WPL-A 07	**Air Source Heat Pumps**
WPL 25 ACS	**Air Source Heat Pumps**
HPA 08 CS	**Air Source Heat Pumps**
WPE-I 04-15 HW	**GSHP with Integrated DHW Cylinder**

Manufacturing Excellence

FREE DELIVERY!

Joule heat pump cylinders use smooth coils that are longer than a normal coil for optimal performance, noise and vibration free.

The Joule high gain buffer and cylinder combined is the same as the unit used with the Samsung range of pre-plumbed heat pump cylinders.

FilterBall Valves

FilterBall valves are a time saving and cost effective device to replace the traditional strainer with isolating valves. With a simple lever ball valve, the stainless steel basket strainer can be removed, cleaned and replaced in under a minute, drastically saving time on servicing but also reducing costs on installation time and materials.

The FilterBall valves also have an option with an inbuilt magnet to remove magnetite from the system and a thermometer for temperature monitoring.

FilterBall Valve 480 - No Magnet

Product Code	Description
78091120	Filter ball valve 480-20, 3/4"F, lever
78091125	Filter ball valve 480-25, 1"F, lever
78091132	Filter ball valve 480-32, 1 1/4"F, lever
78091140	Filter ball valve 480-40, 1 1/2"F, lever
78091150	Filter ball valve 480-50, 2"F, lever

Filter balls are also available with a thermometer

Filling and Flushing Devices

Filling and flushing devices are a simple combined device that allows correct filling, flushing and filtration for heat pump and heating systems. With an inbuilt stainless steel filter the units are compact, saving time and money on installation and service.

With an option of inbuilt magnet to remove magnetite from heating systems the units are must have for systems.

Filling Device DN25-32, Key Grip – no magnet

Product Code	Description
78091520	Filling device 752-20, 3/4"M x 3/4"F, T-handle
78091525	Filling device 752-25, 1"M, key grip, insulation
78091532	Filling device 752-32, 1 1/4"M, key grip, insulation

Insulation

Product Code	Description
78065015	Slit & Seal PVC coated insulation 22mm x 19mm 2m length - 150 Pipe
78065020	Slit & Seal PVC coated insulation 28mm x 19mm 2m length - 150 Pipe
44011922	HT Insulation 19mm x 22mm (2m length)- Kaimann
44011928	HT Insulation 19mm x 28mm (2m length) - Kaimann
44050300	HT Insulation Tape 15m x 50mm
44090100	Secon Insulation Tape 3mm x 10M

Top Seal - Uncoated With Insulated Wrap Over

Product Code	Description
44081322BX	13mm Wall Thickness – 22mm x 13mm
44081328BX	13mm Wall Thickness – 28mm x 13mm
44081922BX	19mm Wall Thickness – 22mm x 19mm
44081928BX	19mm Wall Thickness – 28mm x 19mm
44081935BX	19mm Wall Thickness – 35mm x 19mm
44081942BX	19mm Wall Thickness – 42mm x 19mm

Copper Pipe & Insulation (for split systems)

Product Code	Description
78071152	Copper pipe 15m x ¼"
78071153	Copper pipe 15m x 3/8"
78071154	Copper pipe 15m x ½"
78071155	Copper pipe 15m x 5/8"
78071303	Copper pipe 30m x 3/8"
78071305	Copper pipe 30m x 5/8"
78073152	Pipe Insulation 15m ¼" x 3/8"
78073153	Pipe Insulation 15m 3/8" x 3/8"
78073154	Pipe Insulation 15m ½" x 3/8"
78073155	Pipe Insulation 15m 5/8" x 3/8"

Pre-insulated Copper Pipe (for split systems)

Product Code	Description
78071010	Pre-Insulated Copper pipe 20m 1/4" x 3/8"
78071020	Pre-Insulated Copper pipe 20m 1/4" x 1/2"
78071030	Pre-Insulated Copper pipe 20m 1/4" x 5/8"
78071040	Pre-Insulated Copper pipe 20m 3/8" x 5/8"

ANCILLARIES

Wall Mounting Brackets

Product Code	Description
78065501	Secon Trade Wall Bracket 560L
78044530	(Optional) Wall Bar L800
78044540	(Optional) Wall Bar L1200
78044520	Secon Trade Wall Bracket TSE-300 680mm 300kg
78051710	Galvanised Cantilever Wall Bracket 750mm 200Kg
78051720	Galvanised Cantilever Wall Bracket 900mm 150kg
78051000	Anti-Vibration Mounting Bolts (pk4) 40 x 32mm rubber with M8 bolts
78051030	Wall Bracket Extra Large 660mm - up to 250kg

Floor Mounting Systems

Product Code	Description
78065505BX	Secon Trade Articulated Foot (Box of 4)
78044512	Extreme LOW Flexi Foot Set 600mm pair
78044502	Extreme Flexi Foot Set 600mm pair
78050030	Flexi Lite Slab & 2 Feet Kit
78044500	Extreme Flexi Foot 600mm Single
78044510	Extreme LOW Flexi Foot 600mm Single
78044515	Extreme Riser Foot pair

Secon Trade ASHP Guard

Product Code	Description
78064210	Secon Trade ASHP Guard

Scale Reducers

Product Code	Description
61052115	15mm Fernox Electrolytic
61052122	22mm Fernox Electrolytic

Condensate Collection Trays

Product Code	Description
78051510	Small - for smaller AC units 400 x 800mm
78051520	Medium - standard for Samsung / Mitsubishi 400mm x 1100mm
78051530	Large - standard for Panasonic 400 x 1400mm

Electric Support Heaters

Additional system 3kW electric heaters are perfect as a support heater to a traditional wet heating system operated by either a heat pump or fossil fuel boiler.

Built-in 3kW electric heater with a stepless temperature setting, a bimetallic thermometer for monitoring temperatures and a high temperature safety cut-out. The units come with a EPP preformed insulation casing.

Rifleman – can be mounted in horizontal or vertical orientation with 2 No. 1 ½" BSP connections. Utilised as a 'through' heater. Rifleman Pro – Mounted vertically, with 4 No. 1 ¼" BSP connections, sensor pocket, automatic air vent and magnetic drain separator. This can be used as a low loss header or additionally as a 'through' heater

NEW

Product Code	Description
78061101	Elterm Rifleman 230/3 3kW In-line Electric Heater
78061102	Elterm Rifleman Pro 230/3 3kW Electric Support Heater

Sundry Items

Product Code	Description
78050040	Soakaway Kit
78065100	Through Wall Kit
62010002	Resol SBS2000 Filling & Flushing Station 240v
36050010	Resol Refractometer
61052150	Fernox Powerflow Flushing Machine MK3m x 50mm

About Secon...

Secon is a specialised renewables distributor supplying high quality products to installers throughout the UK and Ireland.

We started trading in 1998 from the founder's front room in Sunderland. The business started out in solar thermal and we are still the largest distributor in the UK for solar thermal equipment.

The business has grown substantially over the years and we have used our knowledge of renewables to expand our offer in to heat pumps and biomass ancillaries.

We are distributors for all the major heat pump brands and our trade-only web shop is the largest dedicated renewables web shop in the country, carrying details of hundreds of products, all available to buy online.

The business has been built on the back of exceptional customer service and all stock items are dispatched the same day for next day delivery to most of the UK mainland.

Our technical department has many years of experience and can provide unrivalled technical support so if you need advice on a project or with help finding a suitably qualified installer, please contact us.
